

August 22, 2018

To Whom It May Concern:

RTMDx is powerful software that makes Risk Terrain Modeling (RTM) easy. RTMDx is solely and exclusively owned by Rutgers, The State University of New Jersey and is **available from the Rutgers Center on Public Security (RCPS) through the RTM Training and Continuing Education Program (“Training Program”)**.

The all-inclusive Training Program gets you up-and-running quickly with RTM, and the RCPS professional services offer dedicated technical support and consultation to people of all skill levels. **The Training Program also includes an online self-guided tutorial and cloud-based access to RTMDx software with personalized secure account login credentials.** This model of service delivery reflects a commitment by RCPS to sustainably offer RTMDx as a practical, evidence-based and high-quality tool for practitioners.

**Please note: You cannot purchase RTMDx software directly. You must subscribe to the Training Program. RTMDx software is included with the Training Program.**

**Subscribe to the Training Program (with RTMDx software) anytime at [www.rtmdx.com](http://www.rtmdx.com)**

The Training Program includes a 1-year cloud-based subscription to the RTMDx software for the registrant or the registrant’s designee(s). Individual and institutional/agency subscriptions are welcome. Simply renew your RTMDx software by re-enrolling in the Training Program for continuing education and the latest updates.

Rutgers University is the sole source provider of RTMDx software. It is not licensed to any third-party vendor or other entity for resale or redistribution, in any form. RTMDx is only available from Rutgers University via the RCPS Training Program.

Sincerely,

*Leslie Kennedy*

Director, Rutgers Center on Public Security
