To Whom It May Concern:

RTMDx is powerful software that makes Risk Terrain Modeling (RTM) easy. RTMDx is solely and exclusively owned by Rutgers, The State University of New Jersey and is **available from the Rutgers Center on Public Security (RCPS) through its *RTM Training and Continuing Education (Training) Program***.

The Training Program gets you up-and-running quickly with RTM, and the RCPS professional services offer dedicated technical support and consultation to RTMDx users of all skill levels. **The Training Program also includes an online self-guided tutorial, cloud-based access to RTMDx software with personalized secure account login credentials, and other resources.** It is officially listed as an online self-paced course at Rutgers University, under the noncredit course catalog (<http://noncredit.rutgers.edu>).

Please note that you cannot purchase RTMDx software directly. You must register for training. **RTMDx software is included with training.**

Register for the Training Program (with RTMDx) anytime at www.rtmdx.com

The Training Program includes a 1-year cloud-based subscription to the RTMDx software for the registrant or the registrant's designee(s). Individual and institutional/agency registrants are welcome. Simply renew your RTMDx subscription by re-enrolling in the Training Program for continuing education and the latest updates.

Rutgers University is the sole source provider of RTMDx. It is not licensed to any third-party vendor or other entity for resale or redistribution, in any form. RTMDx is only available from RCPS.

Sincerely,

Leslie Kennedy

Director, Rutgers Center on Public Security
